

Outline of Claims, redacted:

1. A switch comprising:  
a **switch body** including a connector portion;  
an insulation displacement **connector** on the connector portion .....; and  
an insulating **flap** hinged to the switch body.....
4. A switch comprising:  
a **switch body** including a connector portion;  
an insulation displacement **connector** on the connector portion; and  
an insulating **flap** hinged to the switch body.....
5. A switch comprising:  
a **switch body** including a connector portion;  
an insulation displacement **connector** on the connector portion.....; and  
an insulating **flap** hinged to the switch body.....
8. A switch comprising:  
a **switch body** including a connector portion;  
an insulation displacement **connector** on the connector portion .....;  
an insulating **flap** hinged to the switch body; and  
a guide member between the flap and connector portion.
12. A switch comprising:  
a **switch body** including a connector portion;  
an insulation displacement **connector** on the connector portion; and  
an insulating **flap** hinged to the switch body.....

14. (Currently Amended) A switch comprising:  
a **switch body** including a connector portion;  
an insulation displacement **connector** on the connector  
portion .....; and  
an insulating **flap** hinged to the switch body.....
16. A switch comprising:  
a **switch body** including a connector portion;  
an insulation displacement **connector** on the connector  
portion.....; and  
an **extension** on the end of each of the tines.....
17. A switch comprising:  
a **switch body** including a connector portion;  
an insulation displacement **connector** on the connector  
portion.....; and  
an **extension** on the end of each of the tines.....
18. A switch comprising:  
a **switch body** including a connector portion;  
at least a pair of insulation displacement **connectors** on  
the connector portion..... ; and  
an insulating **flap** hinged to the switch body.....;  
a pair of guide **wings** on the connector portion .....;  
a guide **pin** on one of the connector portion .....;  
a **hook** on ..... the connector portion;  
a first **shoulder** on the **flap** .....;  
a second **shoulder** on the **flap**.....;  
a pair of rounded **grooves** inside the **flap**.....;  
a pair of **slits** in the **flap** .....
